

ACCOMMODATION

The Ionian University doesn't provide any housing.

One should estimate approximately 250€ - 400€ / per month (it depends on the type: flat-sharing – small apartment etc.). Rooms can be found through the internet or by consulting the relevant notice boards located at the entrances of the University's building facilities.

It is the student's responsibility to find accommodation.

As soon as the student finds accommodation, he/she must bring to his/her Ionian University Department's Secretariat a copy of his/her House Rental Contract. Otherwise, the Secretariat will not be able to proceed to the student's enrollment.

When choosing to rent privately, please take the following into account:

- Length of contract
- Location
- Terms of Contract
- Past Reviews

Recommendations:

- Arrange temporary accommodation in a hotel or similar before arriving in Corfu so that you can view properties in person
- Do Not pay any money upfront until you have seen the property
- Get a receipt for any money paid to landlords

Take photos of the property when moving in to show you have left it in the same condition when you leave.
