

Academic Biographical Summary

Constantine G. Lyketsos, MD, MHS, FACLP, FACPpsych, FACNP

A native of Athens, Greece, Constantine G. Lyketsos graduated from Northwestern University with a BA in Psychology and from Washington University Medical School in St. Louis with a Medical Doctorate. He completed residency and Chief Residency in psychiatry at Johns Hopkins, as well as a fellowship in epidemiology/clinical epidemiology. He holds a *Certificate in the Business of Medicine* from Johns Hopkins Carey Business School, where he also completed the *Johns Hopkins Leadership Development Program*.

An active clinician, teacher, and researcher, Dr. Lyketsos was the founding director of the Johns Hopkins Neuropsychiatry Service, which he led for over a decade. He developed one of the largest and most successful academic neuropsychiatry programs in the USA with special expertise in dementia and traumatic brain injury. Prior to taking leadership of the Johns Hopkins Bayview Department of Psychiatry, he was co-director of the Johns Hopkins Division of Geriatric Psychiatry and Neuropsychiatry. He has held a faculty appointment at the Hopkins Bloomberg School of Public Health since 1994.

As the Chair of the Academy of Consultation Liaison Psychiatry's Task Force on Subspecialization, Dr. Lyketsos was instrumental in the 2003 recognition by the American Board of Medical Specialties of a new psychiatric subspecialty "*Consultation Liaison Psychiatry*." This rapidly expanding subspecialty is focused on psychiatric aspects of complex medically ill, typically patients with chronic diseases where the psychiatric condition is affecting medical care and outcomes. His expertise in this area was critical to his leadership role in the Johns Hopkins Community Health Partnership (J-CHiP) supported by a major grant from the CMS Innovations Center to transform the way Johns Hopkins delivers population-based healthcare in its local community. He now leads efforts to integrate Behavioral Health services throughout the Johns Hopkins Medicine clinical enterprise.

A world expert in the care and treatment of patients with Alzheimer's and related dementias (AD), Dr. Lyketsos carried out pioneering work on the epidemiology and treatment of neuropsychiatric features of AD. His team is developing biomarkers to accelerate treatment development for AD while designing and implementing innovative clinical trials. He leads efforts to ensure the provision of state-of-the-art Dementia Care for people with dementia in the community. Given his special expertise in the relationship between Traumatic Brain Injury and dementia, Dr. Lyketsos advised

the National Football League (NFL) Benefits Office and serves on the NFL Players Association *Mackey-White Health and Safety Committee*.

Dr. Lyketsos is the recipient of the American College of Psychiatrists' *2018 Geriatric Research Award*, the *2016 Jack Weinberg Award in Geriatric Psychiatry* from the American Psychiatric Association, the *2012 Distinguished Scientist Award* from the American Association for Geriatric Psychiatry, the *2006 William S. Proxmire Award* for "extraordinary leadership in the fight against Alzheimer's," and the *2002 Research Award* from the Academy of Psychosomatic Medicine. In 2019 he was installed as an *Honorary Professor* at the University of Ioannina in Greece. In 2022 he received the *2022 Argo Award for Science* by the President of the Hellenic Republic.

A Fellow of the American College of Neuropsychopharmacology, Fellow of the American College of Psychiatrists, and Fellow of the Academy of Consultation Liaison Psychiatry he has authored/co-authored over 400 peer-reviewed articles, chapters, commentaries, as well as five books, including *Practical Dementia Care* (translated into Greek), *Systematic Psychiatric Evaluation* (translated into Greek and Japanese) and *Psychiatric Aspects of Neurological Diseases* (translated into Greek and Russian). His work has been cited over 72,000 times with an h-index of 144. A 2021 Stanford University publication reported that he ranked #13 out of 9,246 scientists worldwide (all-time) in the field of Geriatrics. Castle-Connolly has named Dr. Lyketsos as one of America's Top Doctors every year since 2001.
