

## ACCOMMODATION

### **The Ionian University doesn't provide any housing.**

One should estimate approximately 250€ - 400€ / per month (it depends on the type: flat-sharing – small apartment etc.). Rooms can be found through the internet or by consulting the relevant notice boards located at the entrances of the University's building facilities.

***It is the student's responsibility to find accommodation.***

As soon as the student finds accommodation, he/she must bring to his/her Ionian University Department's Secretariat a copy of his/her House Rental Contract. Otherwise, the Secretariat will not be able to proceed to the student's enrollment.

### **When choosing to rent privately, please take the following into account:**

- Length of contract
- Location
- Terms of Contract
- Past Reviews

Recommendations:

- Arrange temporary accommodation in a hotel or similar before arriving in Corfu so that you can view properties in person
- Do Not pay any money upfront until you have seen the property
- Get a receipt for any money paid to landlords

Take photos of the property when moving in to show you have left it in the same condition when you leave.
