Free-to-access content

ChemSpider

Would you like your work to excel with just a single online search? ChemSpider is a chemical structure database offering a comprehensive view of freely available chemical data. Your research has the potential to go that bit further with fast access to over 92 million structures, properties and associated information.

Target your research.
Start searching and sharing.

Education resources

Innovate and inspire through your teaching, with access to thousands of experiments, videos, worksheets, quizzes and how-to guides. For more inspiration and resources, delve into *Chemistry Education Research and Practice*, our dedicated journal for chemistry teachers, and *Education in Chemistry*, our magazine covering all areas of chemistry education.

Fuel your work.
Get exploring.
