

# BrowZine™

Academic Edition

# Journal Engagement Platform

BrowZine is a powerful *Journal Engagement Platform* that allows you to find, monitor and read scholarly journals available at your library on any device.

Used by over 525 Universities, Hospitals and Corporations

*"I find BrowZine dazzlingly useful, and spend a lot of time recommending it to colleagues and students."*

Philip Jenkins, PhD  
Distinguished Professor of History  
Baylor University

*"I like that BrowZine provides one location to check on all of the major journals that I follow and be notified when a new issue comes out..."*

Charles Umbanhowar Jr., PhD  
Professor of Biology and Environmental Studies  
St. Olaf College

advanced library technologies

# What Makes BrowZine So Powerful?

## Beyond A-Z: True Journal Engagement

- Fewest Clicks to Content of any system, on any platform
- Intuitive and fast interface brings all the advantages of digital journals with the simplicity of print
- Powerful journal engagement means enhanced researcher knowledge and productivity
- Focus on content without being distracted by technology or interface
- Find titles alphabetically or sorted by SCImago Journal Rank

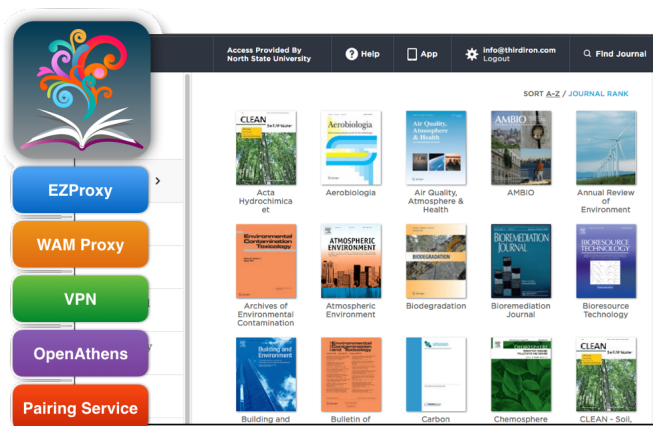

## Built to be integrated

- Simplify and enhance your journal list with our Knowledge Base Link Technology
- Seamlessly keep BrowZine up to date with your changing subscriptions
- Enhance LibGuides, subject pages and LMS services
- Innovate your unique services using BrowZine's APIs
- Integrate with popular Inter-Library Loan system

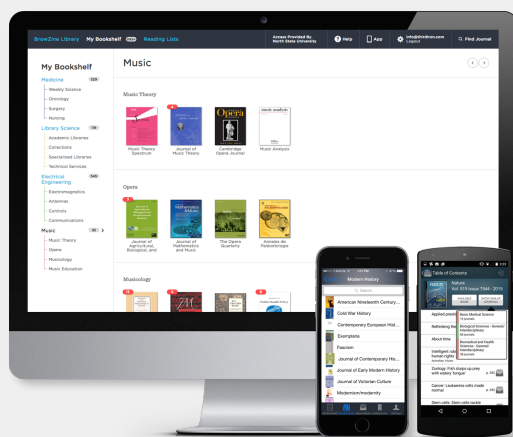

## Customized to your library

- Easy integration into all popular remote authentication systems including EZProxy, WAM proxy, VPN, and OpenAthens
- BrowZine Pairing Service available for libraries with no or difficult remote authentication systems
- Journals that appear in BrowZine are based on your subscriptions, ensuring users see only those titles where access is available
- Brand BrowZine with the name of your library or organization

## Personalized for your users

- With My Bookshelf, users may easily follow titles of interest and be notified anytime a new article is published
- Access journals from the web or on iOS and Android tablets and smart phones
- User accounts are synchronized across web and mobile services
- Saved Articles for offline reading on mobile devices, integration with popular bibliographic management services and more!
- Rich taxonomy guides browsing of titles by subject to promote serendipitous discovery of related journals
