

Welcome to IOP Publishing

150 years of publishing

IOP Publishing's portfolio includes more than 70 journals, around half of which are published jointly with or on behalf of partner societies and research organisations. Our portfolio reflects the growth of scientific research and application in core scientific fields, while recognising its increasingly interdisciplinary nature.

Libraries are at the centre of the scientific, technical and medical research community, and we want to work with you to help make relevant research discoverable and available when and where it is needed.

Our subject portfolios have been developed with the research communities we serve to support the latest development in growing and emerging fields of essential research.

Subject portfolios

Discover the latest research published in subject areas that matter to your institution from across our portfolio of leading journals, an award-winning ebook programme, conference proceedings and expert science journalism.

Astronomy and astrophysics

Atomic and molecular physics

Condensed matter

Education

Engineering

Environment and energy

Instrumentation and measurement

Materials

Mathematics and computation

Optics and photonics

Particle and nuclear physics

Plasmas

Medical physics and biophysics

Biomedical engineering

Quantum science

Providing impact, recognition and value

Whatever research your faculty members and students are looking for, we have the content and publishing credentials they need.

400+

Papers published by Nobel laureates who have been awarded the prize since 2004.

31,753

Total number of peer reviewed articles published in 2021

385

We have dedicated staff based in eight countries working with the global scientific research community.

10,000

IOP Publishing works with more than 10,000 libraries worldwide.

78,181,043

Total number of article downloads in 2021, up by 24%

Partnering for success

- American Astronomical Society (AAS)
- Astro Ltd
- Astronomical Society of the Pacific
- Biophysical Society
- Bureau International des Poids et Mesures
- Chinese Astronomical Society
- Chinese Institute of Electronics
- Chinese Physical Society
- Chinese Society of Theoretical and Applied Mechanics
- Deutsche Physikalische Gesellschaft (DPG)
- European Synchrotron Radiation Facility
- European Physical Society
- The Electrochemical Society
- Institute of Physics and Engineering in Medicine (IPEM)
- International Atomic Energy Agency
- International School for Advanced Studies (SISSA)
- International Society for Biofabrication
- The Japan Society of Applied Physics
- London Mathematical Society
- National Astronomical Observatories of the Chinese Academy of Sciences
- The Royal Swedish Academy of Sciences
- Society for Radiological Protection
- Società Italiana di Fisica
