NEW NATURE PORTFOLIO JOURNALS

springernature.com/nnl2023

PUBLISHING MONTHLY FROM JANUARY 2023

Nature Mental Health

Nature Mental Health is a monthly online-only journal publishing original, peer-reviewed research from the breadth of sciences exploring mental health and mental health disorders. Delivering impactful Articles, News, Reviews, Perspectives, and commissioned content, *Nature Mental Health* reaches a diverse and inclusive readership, including the community, clinicians, researchers, and policymakers.

Chief Editor: **Rebecca Cooney**

Nature Reviews Bioengineering

Nature Reviews Bioengineering is a new online-only journal for the publication of Reviews, Perspectives and Comments in all scientific disciplines within bioengineering. The Reviews are balanced with descriptions of relevant scientific literature that are easy to grasp for recent graduates in any bioengineering-related discipline.

Chief Editor: **Christine-Maria Horejs**

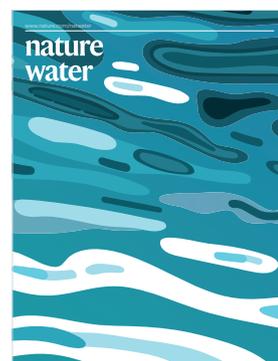

Nature Water

Nature Water is an exclusive online journal that will publish the best research on the evolving relation between water and society, covering natural sciences. Our aim is to publish studies that will have an impact on fundamental understanding, on practical technological applications and on the potential for policy implementation.
