

Department of Digital Media and Communication  
**STUDENT: Procedure of Assignment/Elaboration/Presentation of Thesis**

Check whether I meet the conditions for elaboration a Thesis

During 7<sup>th</sup> semester, students have to apply for a thesis. Select one of those available at the department website

After selection, contact corresponding Professor to figure out whether the thesis in question is still available and he would agree to be my supervisor

Upon confirmation I have to fill-in and email it to the Secretariat the corresponding Assignment Form as available in the department's website

Expect guidelines from the Supervisor for starting the Thesis elaboration

Thesis has to be completed during the 8<sup>th</sup> Semester. It could be extended for one more semester after submitting respective application which needs to be accepted by the supervisor. Students who do not complete the thesis on time will have to re-declare it in the next semester.
