What our customers say about us...

"In the last four weeks I learned that I am able to work in an environment using another language, communicate with people who do not speak my mother tongue. My work was always appreciated and this gives me a lot of satisfaction. I was not the most accurate, however, I tried doing my best. It would be nice to come to work here after school. In the office, all employees were very kind and helpful, and that is a good thing. I thank Paragon Europe for these four weeks, which were very formative."

"We have been working with Paragon Europe for two years now and so far the experience has been very positive. The team at Paragon Europe has always reacted very promptly to all our concerns, they have a good network with Maltese companies and are able to find suitable work placements for students even at very short notice. Our students really received an international experience, as they shared apartments with other students from all over Europe."
