Short Description of the Company	Poligon is a creative centre, established on grounds of the coworking work method and enhanced with very diverse additional content, specially designed for its full-time and part-time users. Poligon is thus an autonomous platform and work space for non-profit and for-profit project development with an agenda to empower the self-employed. Poligon also hosts specialized lab - Poligon MakerLab - with 3D printers and other technical equipment that will enable fast prototyping for industrial designers and a quality materialization of concepts for other creators was finally fully operable. Another specialized lab is Crowdfunding lab with purpose to equip various innovators with skills necessary for a successful execution of a crowdfunding campaign.
