

You love **football** and want to do an **international internship** in **Berlin**?

Come and join a great team to build the leading social betting app! Launched during the world championship (together with Thomas Mueller and adidas) you can use **Gambify** to bet on football games, compete with your friends and win big prizes.

Your Role

- You implement mobile UI concepts with Javascript and React.
- You work closely together with the backend developers and the product manager.

Your Profile

- You have previous experience with Javascript, HTML and CSS - optionally with React.
- You are a team player and eager to learn new techniques.

Our Offer

- You learn how to develop high performing mobile apps using hybrid techniques.
- You can grow due to a high level of responsibility.
- You gain the opportunity to experience and shape the construction of a young, growing company.

We are looking forward to receiving your application including your availability to info@gambify.com!
