6 Month Software Developer Internship
RALSD1710

PLEASE READ CAREFULLY BEFORE CONTINUING.
ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students and recent graduates in the UK. We work closely with our host companies to ensure the positions provide the candidates with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: All ESPA's services are **free** for students and alumni. The benefits are:

1) Paid Accommodation.
2) Paid Utility Bills (electricity, gas, water and council tax) + Internet Access
3) Commuter travel to work (accommodation will be found within an acceptable commuting distance from the workplace, if that requires more than a sensible walk then a bus/train ticket will be provided).

This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 700€-1000€ per month (depending on location).**

There is no salary over and above the benefits offered, unless specifically stated.

The Host Company

This digital solution provider is offering a breakthrough **cloud-based CRM tool**. They are focusing on the **healthcare industry**. Their disruptive solution is already deployed in the US and UK with a view to expanding this offer to other European markets as well as emerging markets.

Role

This company's development team is creating a disruptive Saas solution to improve the communication between treatment providers and patients. To keep their competitive edge they need to constantly innovate and perfectly fit with customers' needs. **Your role will be to develop and support this new technology with a huge focus on the user adoption.**

Location

Bath. A world-heritage city in the South West of England which hosts two great universities. It has wonderful cultural experiences and is just 1.5 hour train journey from London and a 15 minute train journey from the vibrant city of Bristol.

Duration

6 months

Start date

As soon as possible

Languages

Good spoken and written English levels (B2/C1 onwards)

Tasks

- Development of the Saas Solution
- Implementation of common design patterns and UX designing
- Automatic testing and quality assurance activities
- Assist the development team according to projects
- Developing and integrating with RESTful APIs and SOAP web services.
- Unit testing, integration testing and continuous integration.
- Issue tracking and management.

Personal Skills

Essential:
- Modern PHP MVC frameworks such as Laravel, Yii, as well as alternatives such as CodeIgniter or vanilla OO PHP.
- MySQL.
- JavaScript (server-side node.js as well as client-side) and Ajax.

Desirable:
- HTML5 and CSS.
- Agile development processes and workflow.
- Git version control and deployment methodologies.
- Nginx and Apache configuration and management.
- CMS such as Craft, ExpressionEngine, and Wordpress and creating extensions/plugins for bespoke functionality.
- Frontend development tools such as Gulp, Grunt and SASS.
